

1 Components

Top Marble - x01

Stem- x01

Base- x01

This diagram shows the three main components of the stool. At the top is a circular 'Top Marble' with a central hole and two small indentations. Below it is a long, thin 'Stem' with a small protrusion at the bottom. At the bottom is a 'Base' consisting of a wire mesh structure with a circular ring at the base.

2

Stem

Base

This diagram illustrates the second step of assembly. The 'Stem' is being inserted into the top opening of the 'Base'. Two downward-pointing arrows indicate the direction of insertion, and two curved arrows indicate that the stem should be rotated to fit into the base.

3

Top Marble

This diagram shows the third step of assembly. The 'Top Marble' is being lowered onto the 'Stem'. Two downward-pointing arrows indicate the direction of movement, and two curved arrows indicate that the marble should be rotated to align with the stem.

4

This diagram shows the final step of assembly, which is the fully assembled stool. It consists of the 'Top Marble' on top of the 'Stem', which is attached to the 'Base'.
