# Yard Furniture

Open shelving furniture for Yard washbasins

# Why are we bringing this novelty to the market?

- By introducing the Yard furniture, we aim to support the sales of washbasins from this series.
- We will offer customers an additional installation option for Yard washbasins with the bonus of extra storage space in the bathroom.
- We are filling the gap in the Yard washbasin range by offering the possibility of combining it with furniture, something that was previously missing, providing customers with a comprehensive solution for their bathrooms.

# Design of the Yard open shelving furniture

# New open shelving furniture with Yard washbasin

# Yard Furniture

- The shelving system with steel legs provides ample storage space for the bathroom without appearing bulky. Easy access to essential items such as towels or cosmetics enhances user comfort.
- Thanks to the thoughtful design with two shelves following the rounded lines of the Yard washbasins, it brings a subtle contrast to the right angles of the other bathroom furniture.
- An elegant and practical feature is the slight overhang of the top part of the metal legs, which also serves as a towel holder.

# Yard Furniture

- The subtle shape of the entire structure highlights the colour scheme. In contrast with the white washbasin, the coloured furniture acts as a vibrant accent in the bathroom, while the monochromatic design of both the washbasin and the shelving structure creates an elegant and sophisticated impression.
- The available colour options – matte white and matte black – meet current interior design trends, making it easy to integrate into various bathroom styles.
