60 82568

80 82569

100 82570

120 82571

120 2S 82572

Firstly, set the drill points, according to the scheme and dimensions of the drawing for a installation at the recommended height. Then, drill a hole at each point and insert the appropriate screw and plug for each

Hang the washbasin over the screws by passing these scrfews through the holes that the washbasin has on the rear fase.

Finally, to ensure the washbasin, thread the Nylon caps on each of the screws.
